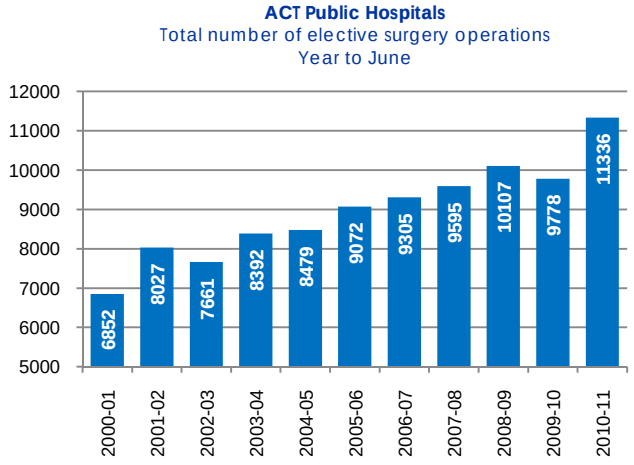
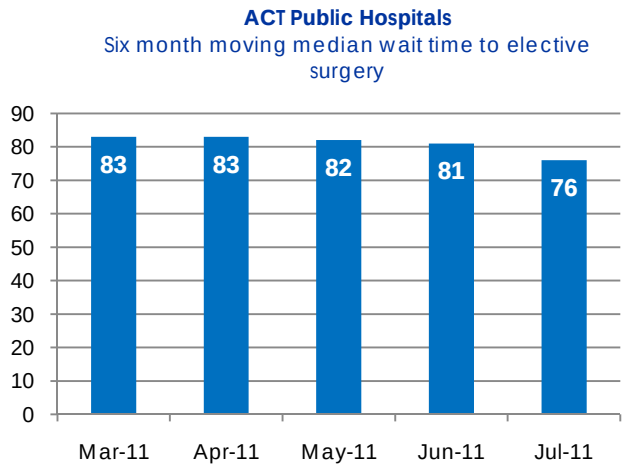
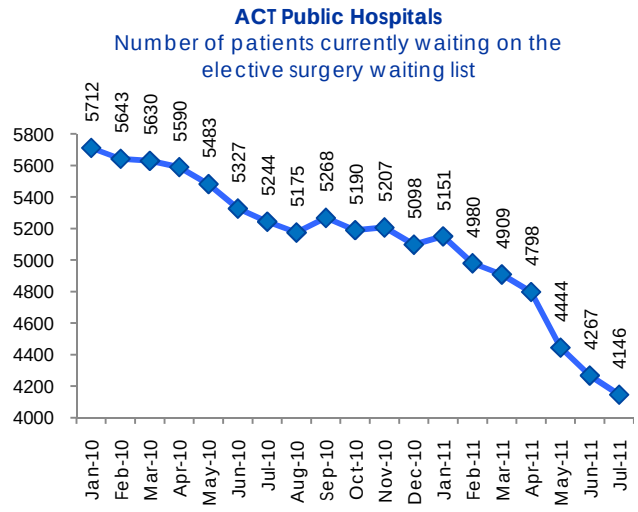
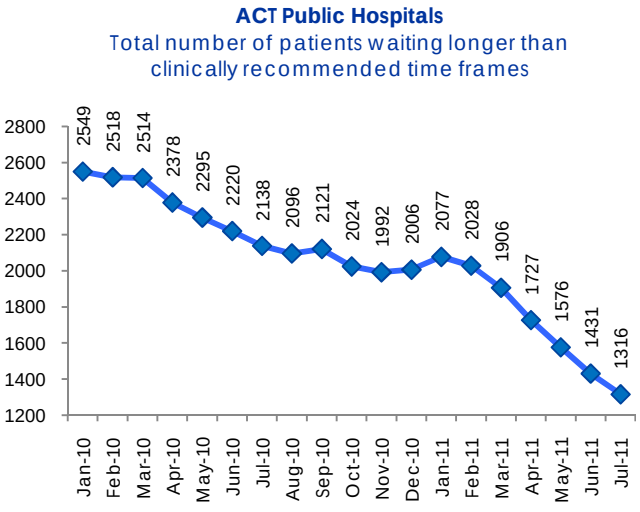
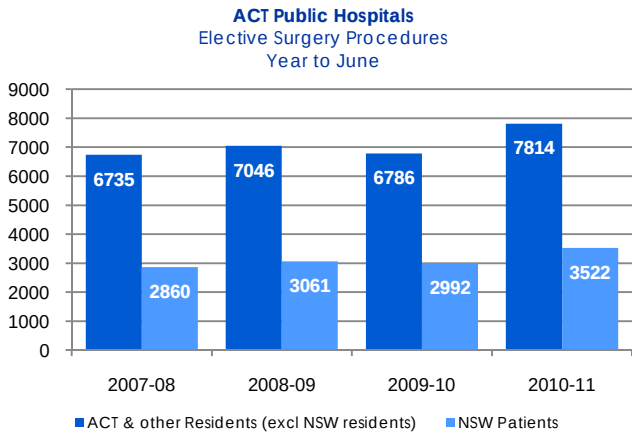
ACT Surgery Report Card June / July 2011

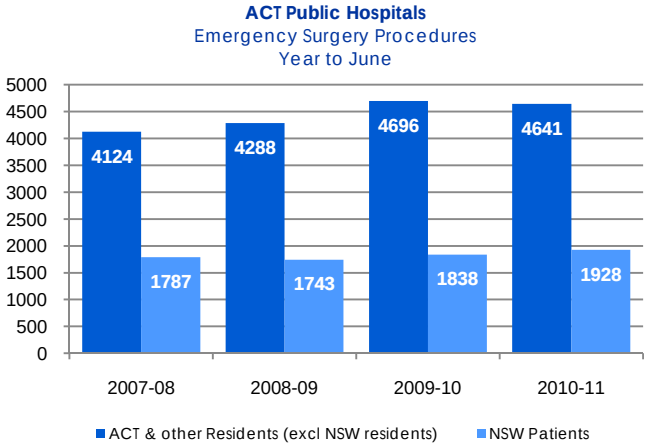




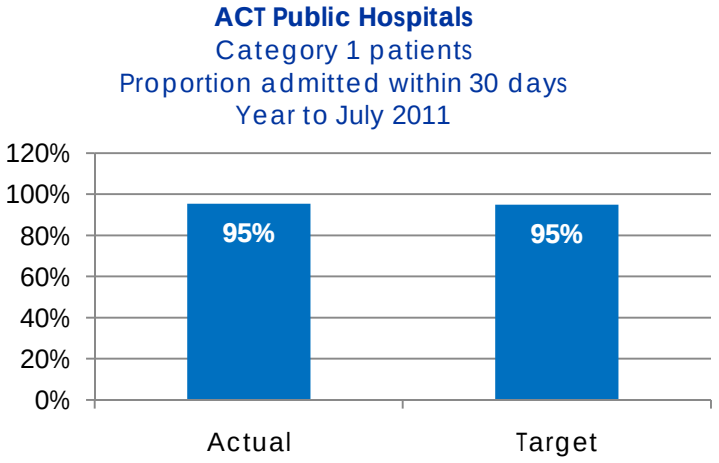


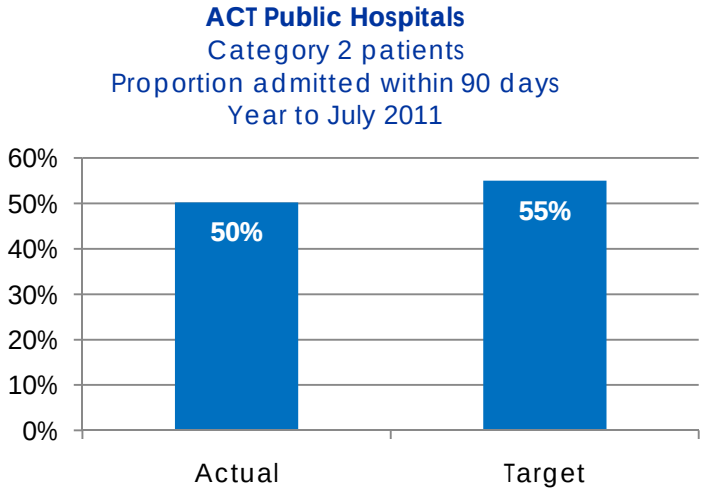


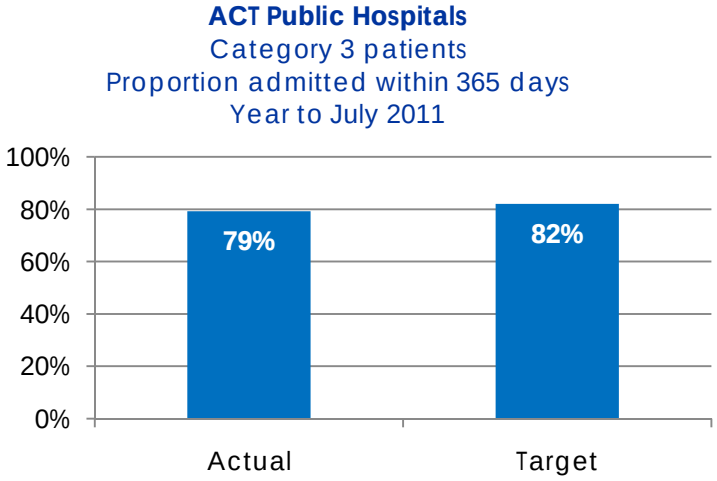




ACT Surgery Report Card June / July 2011







Under the National Health Reform Program targets for elective surgery in the ACT are as follows: 100% percent of patients admitted within recommended waiting times by 2016. The targets have been staged across the next five years and change incrementally for each clinically urgency category. The first targets for the ACT are to be achieved by December 2012
